### The Mary Rose

The Mary Rose was King Henry VIII's favourite warship, and he had named it after his sister. On 19<sup>th</sup> July 1545, disaster struck the Mary Rose. The French had landed on the Isle of Wight and King Henry had come to watch his fleet battle the French. At the head of the fleet was the Mary Rose. It is not known exactly what happened to cause it to sink, but many people believe that when the guns were fired on one side of the ship, the boat tilted and began to fill with water through the open gun ports on the other side of the ship. The Mary Rose sank in minutes killing 700 sailors.

### William Shakespeare

Shakespeare was one of the world's greatest playwrights and poets. He was born in 1564 in the English town of Stratford-upon-Avon. By the time he was 30, he moved to London to become an actor. Around this time he also started writing plays, which were hugely popular in his lifetime. They were performed for Queen Elizabeth I and King James I. The plays were not published until after Shakespeare's death, in a book called the First Folio. Today, his plays and poems are still performed, read, and discussed all over the world. The use of rhythm and clever words make the plays fun to read, and they can be very funny, especially when performed out loud. They are also about important themes we can all relate to, such as romantic love, family relationships, and fear of death.

Shakespeare's mom was the daughter of a farmer and his father was a glove maker and wool trader. William was the third of eight children.

Shakespeare was married aged 18. His wife was Anne Hathaway. They had three children: Susanna, Hamnet and Judith. Hamnet and Judith were twins.

Women were not allowed to act in Shakespeare's time. Boys had to play any female parts in the plays.

Shakespeare was called sometimes called 'The Bard of Avon'. Bard means poet.

Shakespeare wrote different types of plays - comedies (funny plays), tragedies (sad plays) and histories (plays about real people).

Shakespeare's theatre group performed in two theatres, the Globe and the Blackfriars. The Globe theatre was shaped like an Octagon (8 sides). The Blackfriars theatre had a roof and the Globe did not.

Shakespeare wrote 38 plays and 154 sonnets. He created and introducing 3,000 words into the English language.

### Life in Tudor Britain

Life in Tudor Britain was harsh - the average life expectancy was only 35 years. Most Tudor people lived in the countryside, but some lived in towns or big Tudor cities like London, Bristol or Norwich. Tudor England was a farming society. Most of the population (over 90%) lived in small villages and made their living from farming. Under Tudor rule England became a more peaceful and richer place. Towns grew larger and the mining of coal, tin and lead became popular.
